EXTENDED LEARNING

University Education Induction Programme (Academic Development Programme)

"Education, training and innovation are central to South Africa's long-term development. They are the core elements in eliminating poverty and reducing inequality, and the foundations of an equal society." (National Development Plan: Vision for 2030).

For education to play this pivotal role, it requires committed academics who are able to construct and transfer knowledge through carefully designed and implemented curricula. The University Education Induction Programme is designed to support the personal and professional growth of Academics through four specialised modules: Supervising Research in Higher Education, Assessing Learning in Higher Education, Designing and Evaluating Curricula in Higher Education, and Teaching and Learning in Higher Education.

REGISTRATION NOW OPEN

OUR WORLD IS CHANGING...SHOULDN'T YOU?

University Education Induction Programme (Academic Development Programme)

How you will benefit. You will learn to:

- Supervise research in ways that are effective, efficient and ethical
- Explore and debate a wide range of assessment possibilities
- Develop and critique relevant curricula
- Enhance teaching and learning practices in the South African context
