

CAREER PRESENTATION FOR IT STUDENTS

WEDNESDAY 23RD AUGUST
12:00 – 13:00 | L10

DVT (dvt.co.za) is the largest, privately-owned IT company in South Africa that you have never heard about. With over 600 employees engaged in application development, mobile apps, testing services, analytics and Agile consulting to some of the largest and most progressive organizations in the country (think Standard Bank, Mr Price, The SA Reserve Bank, Derivco), **DVT should be on your list when considering your future career options.**

With offices in Umhlanga (as well as Cape Town, Johannesburg, Pretoria and London) we might just be the place for you, assuming you want a career in technology, like solving problems, learning and NOT having to move to Johannesburg to do that. If you do, for some strange reason want to move to Jozi, well we can help with that (but we want you to stay here!).

So let's have a chat about working in digitalization and living by the sea.
