### SOUTH AFRICA'S MODEL OF A DEVELOPMENTAL STATE – AGENDA AND THE DRIVERS

What is SA's model of a developmental state, the shape and form (conceptual framework, strategy, goals and measurable targets)? Where is the centre located? What is an overarching action plan and; what are the international experiences and working class agenda & response?

Join us as policy makers, activists, academics, researchers and IWLP students robustly and critically grapple with these questions.

**Bua Msebenzi!!!!!!**
