Senior Leadership Development Programme (SLDP)

The Senior Leadership Development Programme (SLDP) has been developed to provide a seamless pipeline to build your capacity to lead and manage the strategic direction and operations of the organisation towards achieving its overall objectives and strategic goals.

The SLDP is designed to provide relevant and rigorous high level, experiential learning to understand the why (context) and historical perspective of developments in various sectors, using the latest leadership best practice and thought leadership. It also focuses on the processes and behaviour inherent in achieving excellent performance outcomes through optimal management and leadership.

Delegates will be engaged and supported at a personal level through one-on-one executive level coaching support, with a focus on developing specific behavioural competencies, based on individual development needs.

The assessed component of the programme will include team-based and individual assignments, focusing on the strategic priorities, opportunities and challenges.
