UNIVERSITY OF KWAZULU-NATAL
WESTVILLE CAMPUS, LIFE SCIENCES

WORLD OCEANS DAY IS A DAY DEDICATED TO CELEBRATING THE WORLD'S OCEANS, THEIR AMAZING DIVERSITY AND THE CRITICAL ROLE THEY PLAY IN SUSTAINING LIFE ON LAND. COVERING OVER 70% OF THE EARTH'S SURFACE, OCEANS ARE HIGHLY PROMINENT DIVERSE SYSTEMS IN THE WORLD. UNFORTUNATELY, BECAUSE MOST OF US ONLY SEE THE BLUE SURFACE OF THE OCEAN WE TEND TO UNDERESTIMATE ITS ROLE IN OUR SURVIVAL. LIFE ON EARTH IS POSSIBLE BECAUSE OF OUR OCEANS.
