BIG DATA AND INFORMATICS

data@breakfast

COMPUTING SOLUTIONS

Join us every last Friday of the month for a delicious breakfast and an insightful learning session where we discuss topics at the forefront of big data, AI, quantum computing, machine learning and more

7.30am - 8.30am

Friday, 30 November

UKZN Westville Campus, Govan Mbeki Centre, Seminar Room 5

RSVP [here](#) or email ukzndatabreakfast@gmail.com

Seats are limited

Data for Open Smart Cities

This month's talk will discuss how "open big data" is being used in the field of civic technology to create open, smart cities globally, with a specific focus on the role data is playing in smart cities in South Africa, as well as the dynamics of open vs smart vs inclusive.

By Richard Gevers, Director of Open Data Durban

Open Data Durban is a non-profit civic technology lab that uses open data and civic technology in initiatives that work to build inclusive and responsive cities that can then realise democracy and put citizens at the centre.
