

IT Internship at Allan Gray

Why not spend your vacation learning from some of the greatest minds in the business and giving yourself the opportunity to gain some valuable work experience to kick-start your future career? The Allan Gray IT internship is upon us and we're looking for the brightest, most inspired and eager minds from campuses around South Africa to help us on exciting projects that will both challenge your abilities and allow you to work on projects that stand the chance of making a real difference.

The internship will include an opportunity to play with one of the most exciting tech stacks in the industry, accommodation for the entire period of stay (if from out of Cape Town), free lunches, great learning and great coffee – oh, and did we mention the free lunches? This is an opportunity of a lifetime that you don't want to miss out on.

For more information about what we do in IT at Allan Gray, you can visit the following [page](#).

Main responsibility

Working with a team of fellow interns, you will be tasked with creating some software programs which will help to solve real-world business challenges. During this time, you will be exposed to new technologies, insights and mentoring from others at Allan Gray and get an opportunity to present your final solution to senior management at Allan Gray.

The IT Business functions we are looking to fulfil from this internship are:

- Software Developers
- Technical Testers
- Business Analysts

Qualifications

Currently completing a Bachelor's Degree with a Computer Science / Information Systems major.

Skills / competencies and experience

A passion for software development, whether it be design, coding or testing. Proven leadership, an enquiring mind and problem-solving potential. Preference will be given to final-year students, with some consideration to penultimate-year students as well.

Note: If you are unsuccessful with our IT Internship and you are interested in other areas of the business, please feel free to apply for our business-orientated internship advertised on our careers site.

Duration

24 June - 12 July 2019

Deadline for applications

30 April 2019
