COMPUTING SOLUTIONS

Join us every last Friday of the month for a delicious breakfast and an insightful learning session where we discuss topics at the forefront of big data, AI, quantum computing, machine learning and more!

This month is **CyberSecMonth** and Brett van Niekerk, a senior lecturer in computer science at the University of KwaZulu-Natal, will be speaking on **"Evolving Cybersecurity in the 4th Industrial Revolution"**.

Abstract:

The rapid advances and implementation of technology gives rise to evolving technology-related threats and cybersecurity requirements. The presentation will take a journey through the evolution of cybersecurity and related topics to understand the current trends in cyberspace, and illustrate the challenges and opportunities presented by the 4th Industrial Revolution, where Big Data, Artificial Intelligence, and Cyber-Physical Systems (including the Internet of Things) are becoming more predominate in everyday society.

7:00 for 7:30am - 8:30am

Friday, 25 October

UKZN Westville Campus, Senate Chamber
