BIG DATA AND INFORMATICS

data @ breakfast
C O M P U T I N G   S O L U T I O N S

Join us every last Friday of the month for a delicious breakfast and an insightful learning session where we discuss topics at the forefront of big data, AI, quantum computing, machine learning and more!

This month's talk is by James Preston who will be speaking on:
"What kind of future does blockchain technology provide society"

Where James will provide an exciting and provocative philosophical exploration of a future built on blockchain technology! James is a deeply philosophical tech and media entrepreneur who wants to inspire people to build a better world! He started in radio at 16 years old and eventually started South Africa's first podcast. He studied Marketing and Design, and started his first media business shortly thereafter. He currently runs South Africa's first news website for the blockchain industry, as well as a Fintech marketing company.

07h00 for 07h30 - 08h30
Friday, 31 January 2020
UKZN Westville Campus, Senate Chamber
