1. Introduction

- This Application and Funding Guide provides an overview of the funding guidelines and application process for the honours scholarships for the 2024 academic year.
- The guide should be read in conjunction with the **DSI-NRF Postgraduate Student Application and Funding Framework for Funding in 2024 Academic Year**. The framework document provides detailed information with respect to objectives of the funding opportunity, eligibility criteria, etc. This document does not, however, constitute a complete set of policies, procedures or systems used by the NRF.

2. Application Process

- The call for honours scholarships for full-time studies in 2024 is published on the NRF website.
- The application form is accessible online at <https://nrfconnect.nrf.ac.za>
- Applicants may only submit ONE application.
- Once the applicant submits an application, the application is automatically routed to the proposed institution for a screening and scoring process. Applications that meet the scholarship requirements are then submitted to the NRF by the proposed institution.
- The closing date for applicants to submit applications to their proposed institution is **24 November 2023**.
- Applicants who wish to undergo the ISFAP assessment, must ensure that their application is submitted to the proposed institution earlier than September 2023, as the proposed institution must screen and submit these applications to the NRF by **01 September 2023**.
- Applicants who don't have final year examination results at the time of application, can submit their applications without the marks. However, as soon as the exam results are made available by the university, the applicant must ensure that they send the marks to the Postgraduate Office of their proposed institution for the screening and scoring process.
- The closing date for the proposed institution to submit eligible applications to the NRF is **22 December 2023**.
- All applications are processed by an NRF Designated Authority (DA) who is based at the University Research/Postgraduate office. Should a DA contact you regarding your application, before your application is submitted to the NRF, please make sure you respond as soon as possible or within the timeline given in the communication. Failure to do so may result in the application being rejected at the institutional-screening stage.

3. How to Submit an Application

- The honours scholarship application is available on the NRF Connect system (<https://nrfconnect.nrf.ac.za>)
- This application and funding guide consists of two steps of the application process:

It contains a 'Visibility settings' section with the following text: 'Your ORCID iD connects with your ORCID record that can connect links to your research activities, affiliations, awards, other evidence of your name, and more. You control this content and who can see it. By default, what visibility should be given to new items added to your ORCID Record?'. There are three radio button options: 'Everyone (87% of users choose this)', 'Trusted Organizations (7% of users choose this)', and 'Only me (6% of users choose this)'. Below these is a link 'More information on visibility settings:'. A 'Terms of Use' section follows with two checkboxes: 'I consent to the privacy policy and terms of use and agree to my data being publicly accessible when marked as "Visible to: Everyone"' and 'I consent to my data being processed in the United States. More information on how ORCID processes your data.' Below the terms is a red box with a green checkmark and the text 'You are not logged in'. At the bottom are two buttons: 'GO BACK' and 'NEXT STEP'.
