ABOUT THE SPEAKER

Dr Shamim Bodhanya is an academic, consultant, researcher, facilitator, and keynote speaker that draws on inter-disciplinary research to work with complex real-world problems. His work spans complex adaptive systems, strategic foresight, design thinking and innovation, system dynamics, gamification, leadership and organisational development. He has developed and applied a myriad of tools and methodologies for organisational intervention at both strategic and operational levels for a range of clients across sectors. Shamim has over 14 years of industrial experience followed by 20 years of academic, research, consulting, and training expertise.
