ABOUT THE BILINGUAL TUTOR TRAINING WORKSHOP

The mission of the University Language Planning and Development Office is to embrace and foster functional bilingualism at UKZN through the promotion of equitable use of English language and isiZulu as provided for in the language policy (2006 revised in 2014). Thus ULPDO seeks to develop and promote isiZulu to be the language of research, science and teaching and learning. In the 2022 academic year, the ULPDO planned to coordinate the bilingual tutor training workshop for tutors that are willing to learn tutoring bilingually, using both English and isiZulu in their tutorials. This is aimed at assisting those who are not confident in expressing themselves in English and give them an opportunity to use isiZulu to better understand scientific concepts in their respective disciplines.

Objectives of the Bilingual Tutor Training Workshop:

- To promote the use of isiZulu and English in the classrooms
- To disseminate the standardized isiZulu terminology to assist tutors and learners using isiZulu to understand concepts
- To train the tutors and learners to teach and learn bilingually
- To make isiZulu the language of administration, teaching and learning, research and innovation, alongside English.
