

WE'RE HIRING

5,000 DOCTORS
AND NURSES

Have you ever dreamed of owning your own practice... being your own boss and making your own decisions?

What if your future in healthcare wasn't 10 years away... but starting now?

Across South Africa, thousands of qualified doctors and nurses are ready to serve... yet opportunities remain limited, delayed, or out of reach. Years of study. Years of sacrifice. And still... waiting.

Hope4 Doctors, powered by Med-e-Screen, is launching a nationwide initiative to:

Recruit over 5,000 doctors and nurses over the next 24 months
Deliver cutting-edge preventative healthcare technology
Create independent, income-generating opportunities
Enable you to build your own practice pathway

You won't just work in healthcare.
You'll help redefine it.

Step into an opportunity of a lifetime
Take complete control of your future
Be part of something transformative

Apply to join our first intake..
