**EXCELLENCE.**

#### KEY RESPONSIBILITIES:

Facilitate and deliver engaging lectures to adult learners

Design assessment materials, including exam scripts

Conduct exam marking and contribute to moderation processes

Support learners in understanding and applying key concepts

#### MINIMUM REQUIREMENTS:

Strong industry experience in Supply Chain and/or Logistics

Ability to effectively engage and teach adult learners

Experience in assessment design and outcomes-based education

Willingness to participate in exam marking and moderation

Understanding of QCTO requirements (or willingness to learn and align)

Our learners are primarily working professionals, many returning to formal education after several years. We are therefore looking for individuals who can communicate clearly, simplify complex concepts, and create a supportive learning environment.

#### HOW TO APPLY:

Interested candidates are invited to submit their CV to:
